

Task Management App — Mid-Fidelity Wireframes

Two upgraded screens using the specified Poppins typography and colour palette, with annotations explaining the main UX decisions.

Design Decision Annotations

1. Clear visual hierarchy

Poppins Heading 1 (24px/Bold), Heading 2 (20px/Semi-Bold), and Heading 3 (18px/Semi-Bold) create a clear hierarchy so users can scan the dashboard and task form quickly.

2. Consistent typography

Body and caption text use Poppins 16px/Regular, while buttons use Poppins 16px/Medium. This keeps labels, supporting text, and actions visually consistent.

3. Primary colour and CTA

Primary #4F46E5 is used for the main actions such as “Add New Task” and “Create Task”, making the primary action easy to identify.

4. Neutral background and surfaces

Background #F8FAFC and Surface #FFFFFF separate the app canvas from cards and form fields without making the interface visually heavy.

5. Task status visibility

Completed, High, Medium, and Low states use clear visual indicators so users can understand task status, priority, and progress at a glance.

6. Dashboard progress

The progress tracker gives users immediate feedback about daily completion and supports motivation without requiring them to open another screen.

7. Form clarity

Descriptive labels, realistic example content, priority controls, category selection, and an optional attachment field reduce ambiguity when creating a task.

8. Navigation and consistency

The bottom navigation and back navigation keep movement between major areas predictable, while reusable components support consistency across screens.

Typography: Poppins — H1 24px Bold, H2 20px Semi-Bold, H3 18px Semi-Bold, Body 16px Regular, Caption 16px Regular, Button 16px Medium.

Core colours: Primary #4F46E5, Secondary #818CF8, Background #F8FAFC, Surface #FFFFFF, Text #111827, Secondary Text #6B7280, Border #E5E7EB, Success #10B981, Error #EF4444, Warning #F59E0B.
